MOTIVATION / CHANGE REASON DESCRIPTION (AUTHOR TO COMPLETE)

Support modified requirement from the FF-ICE IG section B-2.32.2: "Expression of Filing Status shall allow for the following indications:

- a) Acceptable
- b) Not Acceptable
- c) Pending".

When a Filed Flight Plan has been received well in advance of the flight by an eASP that doesn't provide a re-evaluation process, the status response will be provided at a time when the eASP considers it is able

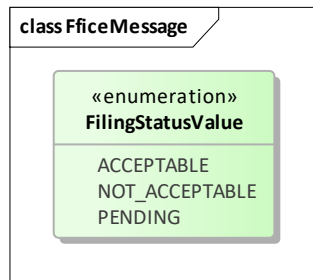

to provide the most meaningful feedback in due time for the Operator to react. In this case, although the real operational status will be provided later, the eASP should still provide an immediate Filing Status response with a status indication of PENDING.

PROPOSED CHANGE (AUTHOR TO COMPLETE)

Add a new entry to the FilingStatusValue enumeration in the FficeMessage package:

Name: "PENDING"

Definition: "The flight plan has not yet been evaluated by the eASP. [FF-ICE]"
