* Optional fields; FIXM Secretariat may update during review

MOTIVATION / CHANGE REASON DESCRIPTION (AUTHOR TO COMPLETE)

As of FIXM Core 4.2.0, the FIXM Workbench is no longer used to convert the logical model into schemas. However, the model still contains some entries used by the Workbench. These unused and potentially confusing entries should be removed.

PROPOSED CHANGE (AUTHOR TO COMPLETE)

For each class in FIXM, open the class dialogue box and navigate to the requirements tab. At the bottom of the page, delete any Requirement entries found (these will always be of type TRACE). See below for an example from the SupplementaryData class in the FlightData package:

Typically only older classes have these entries but they can be found throughout the model.
